SUMMARY

DevOps Engineer with **2 years** of industry experience building CI/CD and delivery automation for complex distributed 4G/5G Open RAN systems at Parallel Wireless. Designs and maintains Jenkins/Groovy pipelines, automates provisioning and deployment with Python/Bash, and operates containerized and virtualized environments (Docker, Kubernetes, KVM, VMware) on a 20+ server Linux lab. Strong system and network troubleshooting with measurable delivery-cycle improvement (build-to-deploy **8h → 2h, ~75%**). M.Sc. Information Systems & AI (GPA 93). **AWS Cloud Developer** and **NVIDIA** certified.

EXPERIENCE

Parallel Wireless — Software Automation Engineer	09.2024 – present · 2 years
- Re-architected 10+ Jenkins/Groovy CI/CD pipelines with parallel stages and fail-fast gates. - Cut build-to-deploy from 8h to 2h (~75%), improving release reliability. - Automated provisioning, deployment, and environment setup with Python and Bash. - Deployed and operated containerized workloads on Docker and Kubernetes. - Managed image lifecycle and multi-node test and integration clusters. - Operated a 20+ server Linux fleet: servers, switches, NICs, firewalls, BMC/IPMI. - Used AWS (EC2, S3, Lambda) for compute, storage, and cloud automation. - Delivered 3 AI agents to production for CI/CD observability, cutting incident triage effort. - Hands-on AI: deliver solutions from development to production with measurable impact. - Troubleshooted systems and networks with Wireshark, PCAP, iPerf, journalctl, and dmesg. - Owned root-cause analysis and post-mortems for infrastructure and pipeline failures. - Defined branching and release strategy with Git workflows and shared Jenkins libraries.	

EDUCATION

M.Sc., Information Systems & AI • University of Haifa	GPA 93 • Expected 2027
Coursework in Big Data Systems, Cybersecurity, Software Engineering, Machine Learning, and Deep Learning, with applied projects on real data and distributed systems.	
B.Sc., Computer Science • Ruppin Academic Center	GPA 83 • 2022 – 2025
Specialization in AI & Data Science. Strong foundation in OOP, data structures, algorithms, operating systems, computer architecture, and software development (C/C++, Python, Java).	

CERTIFICATIONS

AWS Cloud Developing • Dec 2024	Certificate
AWS Cloud Practitioner Essentials • Nov 2024	Certificate
NVIDIA Networking • Apr 2025	Certificate
NVIDIA AI Infrastructure and Operations Fundamentals • Sep 2025	Certificate
IBM Generative AI and LLMs • Apr 2025	Certificate

SKILLS

CI/CD & Delivery	Jenkins · Groovy · Git · GitHub Actions · build & release · pipeline design · fail-fast gates · automated reporting · continuous delivery · deployment automation · release management · artifact management · GitOps
Containers & Virtualization	Docker · Kubernetes · KVM · VMware · image lifecycle · multi-node clusters
Cloud	AWS (EC2, S3, Lambda, SageMaker) · cloud automation
Automation & Languages	Python · Bash · Shell · Groovy · SQL · infrastructure-as-code patterns · AI coding tools (Claude Code, Cursor)
Systems	Linux (Ubuntu, CentOS) · BMC/IPMI · servers · switches · system services · monitoring & KPI dashboards
Networking & Troubleshooting	TCP/UDP/IP · Ethernet · VLANs · Wireshark · PCAP · iPerf · tcpdump · journalctl · dmesg · gdb
Testing	Pytest · Robot Framework · Selenium · Postman
RF & Telecom	spectrum analyzers · channel emulators · RF simulation & signal analysis · RF equipment · 4G/LTE · 5G NR · Open RAN · networking protocols · lab equipment (servers, switches, NICs, firewalls)
Applied AI Delivery	end-to-end AI delivery (prototype → production) · LLM agents · RAG · FAISS / vector search · LangChain · MCP / tool calling · prompt engineering · model serving (REST/FastAPI) · containerized deployment (Docker, Kubernetes) · GPU/CUDA · evaluation & error analysis · human-in-the-loop
Practices & Methodologies	CI/CD · configuration management · monitoring & logging · observability (metrics, logs, traces) · incident response · runbooks · root-cause analysis · Agile · SDLC · Git workflows · GitOps concepts · problem-solving · collaboration

VOLUNTEER

Volunteer Instructor • Hezek LaAtid "Scientific Excellence", Fureidis High School	09.2025 – present
Teaching Computer Science fundamentals and programming to 40 students.	
Student Tutor • Ruppin Academic Center (Algebra, Python, Discrete Math)	01.2023 – 02.2024
"Perach" Program • Tutor & mentor for elementary school students	2022 – 2025
