SUMMARY

Infrastructure Engineer with **2 years** of industry experience building and operating lab, server, cloud, and virtualization infrastructure for complex distributed 4G/5G Open RAN systems at Parallel Wireless. Brought up and maintained a 20+ server Linux environment — hardware provisioning (BMC/IPMI), switches, RF equipment, networking, KVM/VMware virtualization, and Docker/Kubernetes — with strong automation (Python/Bash) and system/network troubleshooting. M.Sc. Information Systems & AI (GPA 93). **NVIDIA Networking**, **NVIDIA AI Infrastructure**, and **AWS** certified.

EXPERIENCE

Parallel Wireless — Software Automation Engineer	09.2024 – present · 2 years
- Brought up and operated a 20+ server Linux environment from scratch. - Provisioned hardware via BMC/IPMI; configured servers, switches, NICs, and firewalls. - Operated KVM, VMware, Docker, and Kubernetes across multi-node clusters. - Automated provisioning, configuration, and environment setup with Python and Bash. - Configured and troubleshot TCP/UDP/IP, Ethernet, VLANs, and L1–L3 networking protocols. - Built RF lab infrastructure with spectrum analyzers and channel emulators for 4G/5G. - Integrated AWS (EC2, S3, Lambda) with on-prem lab for hybrid compute and storage. - Maintained Jenkins/Groovy CI/CD infrastructure; build-to-deploy 8h → 2h (~75%). - Monitored health via Linux logs, KPI dashboards, and diagnostics (gdb, strace). - Deployed 3 AI/LLM tools to production for log analysis, anomaly detection, and alerting. - Hands-on AI: deliver solutions from development to production with measurable impact. - Documented topology, provisioning runbooks, and network configuration standards.	

EDUCATION

M.Sc., Information Systems & AI • University of Haifa	GPA 93 • Expected 2027
Coursework in Big Data Systems, Cybersecurity, Software Engineering, Machine Learning, and Deep Learning, with applied projects on real data and distributed systems.	
B.Sc., Computer Science • Ruppin Academic Center	GPA 83 • 2022 – 2025
Specialization in AI & Data Science. Strong foundation in OOP, data structures, algorithms, operating systems, computer architecture, and software development (C/C++, Python, Java).	

CERTIFICATIONS

NVIDIA Networking • Apr 2025	Certificate
NVIDIA AI Infrastructure and Operations Fundamentals • Sep 2025	Certificate
AWS Cloud Developing • Dec 2024	Certificate
AWS Cloud Practitioner Essentials • Nov 2024	Certificate
IBM Generative AI and LLMs • Apr 2025	Certificate

SKILLS

Systems & OS	Linux (Ubuntu, CentOS) · system administration · services · performance tuning · shell internals · embedded & real-time systems
Virtualization & Containers	KVM · VMware · Docker · Kubernetes · multi-node clusters · image lifecycle
Cloud	AWS (EC2, S3, Lambda, SageMaker) · cloud automation · hybrid lab/cloud
Hardware & Lab	BMC/IPMI · servers · switches · RF equipment · hardware/software integration · data-center/lab provisioning
Networking	TCP/UDP/IP · Ethernet · VLANs · L1–L3 · Wireshark · PCAP · iPerf · tcpdump · KPI dashboards · LTE/5G Open RAN · network configuration · high availability · load balancing · DNS/DHCP
Automation & CI/CD	Python · Bash · Shell · Groovy · Jenkins · Git · GitHub Actions · infrastructure-as-code patterns · AI coding tools (Claude Code, Cursor)
Diagnostics	journalctl · dmesg · gdb · strace
RF & Telecom	spectrum analyzers · channel emulators · RF simulation & signal analysis · RF equipment · 4G/LTE · 5G NR · Open RAN · networking protocols · lab equipment (servers, switches, NICs, firewalls)
Applied AI Delivery	end-to-end AI delivery (prototype → production) · LLM agents · RAG · FAISS / vector search · LangChain · MCP / tool calling · prompt engineering · model serving (REST/FastAPI) · containerized deployment (Docker, Kubernetes) · GPU/CUDA · evaluation & error analysis · human-in-the-loop
Practices & Methodologies	infrastructure provisioning · configuration management · monitoring & logging · observability · capacity & reliability · incident response · runbooks · root-cause analysis · Agile · Git workflows · problem-solving · collaboration

VOLUNTEER

Volunteer Instructor • Hezkek LaAtid "Scientific Excellence", Fureidis High School	09.2025 – present
Teaching Computer Science fundamentals and programming to 40 students.	
Student Tutor • Ruppin Academic Center (Algebra, Python, Discrete Math)	01.2023 – 02.2024
"Perach" Program • Tutor & mentor for elementary school students	2022 – 2025
